

Get the MacDonald Advantage

Injection-molded body is ultra-durable and weighs 1/3 less than metal

Dual hinged lids

Compatible with all standard front-load collection systems

Maneuvers and rolls quietly and easily

Reinforced wheel assembly skid plate for durability and added life

Tough body with drain plug is ideal for wet waste and in-plant applications

It's the MacDonald 1.5m³ Mobile Garbage Bin. With its endurance-engineered, injection-molded body, it's the only structurally uniform 1.5m³ container in the industry. Its uniquely durable design withstands years of harsh weather and use, so it's perfect for outdoor or indoor applications. At MacDonald's, we don't make garbage—we help you collect it.
